# Maintenance Services

IT is the backbone of today's modern organizations. Therefore, keeping servers, data centers, network infrastructures, cloud instances and other assets up and running—and your business continuously operating—is mission critical.

Check which drivers below are impacting your IT assets. If you mark “yes” for one or more drivers, you may want to consider a maintenance service.

Do you experience...	Yes	No
Frequent downtime on IT assets?		
A growing IT infrastructure?		
High costs of managing your own IT?		
High turnover in IT resources?		
Difficulty hiring the right technical skills?		
The need to reduce IT complexity?		
Challenges keeping pace with changing technologies?		
Regularly being drawn into crisis management?		
Compliance and regulations issues?		
A need for greater automation and standard processes?		
Failure to meet SLAs?		
Excessive time and effort to roll out new applications?
